ABOUT ME

I'm Seymur, a dynamic and creative Front-end developer. I have strong knowledge and skills in core technologies such as HTML, CSS and JavaScript. I also have experience working with modern JavaScript Libraries like React. I also have knowledge and skills in developing SEO friendly and Responsive designs according to user experience (UX) and user interface (UI) requirements. I pay special attention to the quality of the code in the projects I create. I have the ability to work with a team and solve problems. I have a great interest in constant learning and getting to know new technologies. I always try to improve myself to get the perfect result.
